17th Annual Fire Hose Race!

CHILDREN'S HOSPITAL COLORADO BURN CAMPS PROGRAM

The Burn Camps Program was created in 1983 to meet the psychological and rehabilitation needs of children and families following burn injuries. After a burn injury, a child can anticipate meticulous reconstructive surgeries and on-going physical and occupational therapy. The Burn Camps Program has grown into a series of camp programs that meet these needs by providing challenging activities and creating opportunities to form lasting friendships and mentorships.

EVENT DESCRIPTION

- The Fire Hose Race Consists of 30+ teams of 5 skiers spaced along a 50' fire hose while working as a team to maneuver through a 15 gate giant slalom course. Along with carrying the hose, each team member is required to wear a bunker coat and a fire helmet. Race teams may include both skiers and snow boarders.
- Each team will complete 2 runs and the fastest overall single run time will win the event and be awarded the traveling Fire Hose Race Trophy to display until the following years event.

PENALTIES & DISQUALIFICATION!

- **RACE RULES**
 - If any member of the team hits finish fencing it will result in a one **(1)** **MINUTE** penalty.
 - Take a gate out - when one or both poles of the gate come out of the ground after contact by the team or a team member equals a **20** **SECOND** penalty.
 - Letting go of the hose - every time a team member lets go of the fire hose with both hands, **5 SECONDS** will be added for each occurrence. Course timers, starters and maintainers should be able to spot this!
 - If any team member or the team misses a gate the team will be disqualified.
 - **Your team will be DISQUALIFIED** if the entire team does not cross the finish line with all team members holding the fire hose - team members don't have to be upright to cross the finish line as in some cases, team members can be dragged over the finish line after falling!
